SUN, MOON AND TIDES.

Table with 2 columns: Time and Sun/Moon/Tides. Rows show data for Day, a.m., p.m., and High/Low.

Six hours after high water it is low water, which is followed by flood tide.

TAFTVILLE

Miss Amelia Jodoin is enjoying her annual vacation.

Mr. and Mrs. Rachel Urban have returned from their wedding trip, which was spent touring points of interest in Canada, in their motor.

Mr. and Mrs. Joseph Parker and son, Edmund, and the Misses Mary and Leona Bertram are at South Swanton, Mass., where they have taken a cottage for the remainder of the season.

Mr. and Mrs. Charles T. Webster have returned from a stay of several days at Groton Lake, New Britain.

George Cadwell of New Britain was a caller in town Wednesday. Mr. Cadwell was principal of the Weequonoc school here, several years ago.

A number of the farmers in this vicinity are attending Farmers' Week at Storrs college.

The Clerks and the Sons of Rest are to play the third game of their series this afternoon if the weather permits.

GREENEVILLE

Special meeting of the Greenville Stock and Lumber Co., tonight, 8 p.m., to take action on death of late member, Axel Anderson. Per order forman—adv.

NORWICH TOWN

Wednesday evening, at Scotland hall, Mrs. Susie Lillibridge and Mrs. John Hull were hostesses at a surprise party given for twin sisters, Misses Edith and Ethel Bushnell, in recognition of their birthday. Sixty guests, including members of Scotland Road Social club and several friends. The evening was devoted to games, music and dancing.

Mrs. Lillibridge and Mrs. Hull served ice cream and cake. The Misses Bushnell were showered with miscellaneous gifts by their friends.

Superintendent of Parks Edward A. Smith and Mrs. Smith, of Rockwell street, had as luncheon guests Wednesday Miss Mary Jane Turner, formerly a member of Williams Memorial Institute, and Mrs. Marlen Smith Phillips, of New London.

Dr. John C. Hinrichs and son, John, Jr., returned Wednesday evening to their home on Town street, following a week's stay in Philadelphia, to which city Dr. Hinrichs was called on business.

Mr. and Mrs. Byron Dexter, with their son-in-law and daughter, Mr. and Mrs. Clarence Amburn, of Scotland road, motored Sunday to Oakland Beach, and were guests of Mr. and Mrs. Frank Cruthers, of Providence, R. I., who are passing the summer at this beach.

Recent guests for several days at the home of Mrs. Susie Lillibridge were her son-in-law and sister, Mr. and Mrs. Harold Watwright, of Storrs, Conn., Mass., the latter formerly of Norwich, who with their children, Joseph and Shirley Watwright, motored to and from Norwich town.

FIVE COMPENSATION

AGREEMENTS FILED

The following five compensation agreements were filed Wednesday with the clerk of the superior court:

MIDSUMMER OUTING

OF MAYORS' ASSOCIATION

Plans have been made by the Mayors' association of Connecticut for its mid-summer outing, which will include this year an inspection trip to the new water shed of the city of Hartford and a visit to the Neponset and the compensating reservoirs.

During the trip the members of the association will decide upon some city as the place for the annual meeting in October.

Needed at Dances

And the Sea Shore

(Aids to Beauty)

Here is a home treatment for removing hairs that is quick, painless and inexpensive: With some powdered talcum and water make enough paste to thickly cover the objectionable hairs. Apply after a 2 or 3 minutes rub off, wash the skin and it will be left soft, clear and hairless. This treatment will not mar the skin, but to avoid disappointment be careful to get real talcum. Mix fresh as wanted.

SCOVILLE PRESENTS TRIP TO STORRS CATTLE JUGGING TEAM

(Special to The Bulletin)

Storrs, Conn., Aug. 3.—Awarding of the trophy for the best team in cattle judging at the Eastern States Exposition, held at Springfield, Mass., in 1920, won by the judging team of the Connecticut Agricultural college, took place this morning. Hawley armory. The presentation was made by Robert E. Scoville, who said it was fitting that notice should be taken of intercollegiate contests that required something other than physical skill. The work of the Connecticut Agricultural college judging team required knowledge and the awarding of the trophy was a fitting recognition of the team's achievement.

The members of the team were Robert E. Johnson, '22, of Norwich, Philip B. Jaquith, '22, and Warren Burrington, '22. The trophy, a bronze statue mounted on a mahogany base valued at \$500, and was offered by the Four Breed Association and is to be competed for annually in cattle judging contests.

At the Eastern States Exposition Mr. Johnson won first prize, \$40 in gold, and Mr. Johnson, son of Mr. and Mrs. Henry D. Johnson, of Norwich, took third honors, \$10 in gold for proficiency in judging all breeds. Mr. Johnson also won first prize in judging Guernseys, and was presented a gold medal by Mr. Scoville, the medal being offered by the Eastern States Exposition for highest knowledge in judging the stock.

This same team represented the Connecticut Agricultural college at the national judging contest held at Chicago and Mr. Johnson, who ranked thirteenth took home honors for Connecticut men.

Following the presentation of the trophy and medal, President Charles L. Beach of the Connecticut Agricultural college introduced, Fred Rasmussen, secretary of agriculture, Pennsylvania, who carried this one line of stock, the best possible degree. The farmer must see the changes that are bound to come and when they arrive, farm to meet the conditions prevailing.

Some of the farm products in only a few lines amount to millions of dollars per year. The value of crops in Connecticut in 1920 reads as follows: Dairy products, \$1,000,000; eggs, \$250,000; tobacco, \$300,000; and fruit, \$2,500,000. Connecticut farmers have a great opportunity but they must cooperate and grade their products to meet the demand of the producers of distant states. For instance, in Pennsylvania certain live stock men have cooperated and have several bulls, which they are graded and the grade kept to the standard. A slogan for farmers might be summed up as follows: "Community development is the surest road to individual success." Do not expect too much for your products but get the highest amount economic conditions permit. Cooperate by communities and place standardized products on the market and the price will be better than that received from high class goods not graded to meet certain standards purchasers look for today.

At 5:30 o'clock on the campus, the annual sheep drive took place. Under the guidance of the shepherd, dogs were sent out and worked among the sheep, bringing them from any point in the field and gathering them about the shepherd.

At 1:30 o'clock on the campus the parade of college owned horses and dairy cattle was held. These fine animals attracted much attention from those who had gathered to witness the event which is to be repeated Thursday and Friday at the same hour.

The Poultrymen's Association met at 9 a.m. at the home of Mrs. J. E. Jones and examined the poultry plant. R. E. Jones, extension poultryman spoke briefly on "The Home Egg Laying Contest."

Meetings of the Connecticut Pomological society and the Connecticut Vegetable Growers' Association took the form of round table discussions and demonstrations. The first meeting of the morning was held at the armory, the subject discussed being "Vegetable Crops for the Dairy and General Farmer."

A budding demonstration was given by Prof. S. P. Hollister. In the afternoon a round table talk on strawberries was held following which Prof. William Stebbins gave a demonstration of Methods of Potato Management, at the Experiment Station barn.

The speaker at the morning session of the Connecticut Beekeepers Association, was Dr. E. E. Phillips, bureau of entomology, Washington, D. C. Allen Latham of Norwich spoke on Cooperative Buying of Bee Supplies. At the meeting of the beekeepers union motion of Mr. Latham, 50 was voted to be sent to the Dr. Miller memorial committee from the association. Individual donations at the meeting brought the amount to over \$100. If sufficient funds are raised the interest is to provide a professorship or a scholarship in some college whereby a greater knowledge of beekeeping may be obtained. Dr. Phillips gave another interesting talk on "The Study of Locality" which means much to the beekeeper. The greatest trouble beekeepers have is that successful experiments of other men in other localities apply to the men in Connecticut. Climate and times of honeyflow are not always the same time. The best nectar secretions are found in the far north but weather conditions make it impossible for the beekeeper to have success there. He advised the beekeeper to study the problem of bee keeping in his particular section of the country and then adjust his plans accordingly. In this way only will successful beekeeping be accomplished.

Now the Tolland County Jersey Breeders' Association is improving the quality of the Jersey cattle of that county was explained to the visiting dairymen by Prof. G. C. White of the college. The Tolland county breeders are mostly farmers who operate on a comparatively small scale. It is impossible for each to afford a first class bull with a satisfactory pedigree, so they have organized for the purpose of owning bulls in common. This plan has been in operation but a few years but has already attracted attention from other states and promises to prove highly successful.

In the afternoon Karl Musser, secretary of the American Guernsey Cattle club gave a demonstration in judging Guernseys and Holsteins. While J. A. McLean did the same with Jerseys and Ayrshires. Representatives of the four leading dairy breeds were led out before the crowd and the visitors were invited to express their opinions as to relative merits of the different animals. The judges then went carefully over the

MYSTIC SHRINERS TO ENTERTAIN IMPERIAL POTENTATE

On the 20th of this month Imperial Potentate E. A. Cutts of Savannah, Ga., will attend the summer ceremonial in the Shrine of the Imperial Temple, Ancient Arabic Order of Mystic Shriners, at Owerwatches.

The Imperial potentate will be accompanied by his term of office, the great honor of laying the corner stone for the first hospital to be erected by the Shriners for the relief of crippled children. This hospital will be erected in St. Louis, Mo., and having already been purchased and plans are in preparation. This hospital will cost \$500,000. The Shrine has in hand \$1,250,000 for the erection of this food elements and has guaranteed an annual income for the maintenance of the same of \$1,000,000. It is estimated that there are 400,000 crippled children in the United States and it is the intention of the Shrine to take care of all curable cases without regard to race, color or creed, the only restriction is that the parents of the children are unable to pay for this treatment.

HELD BIRTHDAY PARTY FOR JEROME PARKINSON

A very pleasant evening was enjoyed at the home of Mr. and Mrs. Jerome Parkinson of 29 West Town street Tuesday night in honor of Mr. Parkinson's birthday. About 20 of his friends gathered and an enjoyable evening was spent. The house was decorated with flowers.

During the evening ice cream, fruit punch and cake were served. A pretty birthday cake with candles was the feature attraction at the table. Mr. Parkinson received many useful gifts. Mrs. Charles Rogers and Mrs. Anna Lamb assisted Mrs. Parkinson in serving. The merry party broke up at a late hour, all wishing Mr. Parkinson many happy birthdays.

Yes, dear, some queer birds roost in family trees.

Wash Skirts

Crisp Tub Skirts of good quality white cotton gabardine and surf satin, made in several well tailored styles, some with neat pockets and belts, pearl button trimmed, value \$4.98

Sale Price - - - - \$2.98

GEORGE H. BRADFORD REMAINS AS MOTOR VEHICLE INSPECTOR

George H. Bradford of Montville has been appointed a motor vehicle inspector in the re-organized state police department. Mr. Bradford held the office of motor vehicle inspector in the old state police department for some time past.

Thirteen members of the old state police department and 25 of the present motor vehicle inspectors have been appointed special state policemen. These 38 men will hold temporary appointments on probation until the commission is prepared to make permanent selections. They are now designated special state policemen to obviate the necessity of preferring charges, as required by statute, against regular state policemen who are to be removed.

Temporary subordinate officers will be appointed later and, as the commission found many of the 600 applications filed for places as state policemen unsatisfactory in various respects, it was decided to issue a new form of application blank. The authorized strength of the reorganized department is 50 men.

PRESTON W. CHASE TO SUPERVISE ATHLETIC EVENTS

Preston W. Chase, athletic supervisor of the Ashland Co., Jewett City, will have charge of the athletic events at the county fair this year. Mr. Chase, who is well known throughout eastern Connecticut, especially among the base-ball fans by the date of the opening of the annual sports tournament at the Rockwell street grounds this month. On Wednesday 26 memberships were taken up at the weekly meeting of the Norwich Rotary Club.

SIXTY ROQUE MEMBERS HAVE BEEN SECURED

The Norwich Chamber of Commerce has to date secured sixty members for the local roque association. This goal is 100 members by the date of the opening of the annual roque tournament at the Rockwell street grounds this month. On Wednesday 26 memberships were taken up at the weekly meeting of the Norwich Rotary Club.

COST OF LIVING HAS DECREASED 21 PERCENT.

During the year from July 1, 1920, to July 1, 1921, the cost of living decreased 21 per cent, says a statement issued this week by the Manufacturers' Association of Connecticut. The National Industrial Conference board, which makes monthly surveys of the cost of living in the United States, finds that the rapidity of the decline slackened considerably during the month of June, 1921.

If all commodities had decreased in price during the last twelve months as much as food, the decline in the cost of living would be considerably greater, as

POETRY

CZECHIAN CHILDREN'S SONG.

Once there was a little house, And in that house a table; On the table stood a bowl, And the bowl was full of water; In the water was a fish, Where now is the fish? The cat ate them.

Where now is the cat? She ran away in the woods. Where now are the woods? They have become ashes in the stove. Where now are the ashes? They were borne away in the stream. Where now is the stream? It was drunk up by cattle. Where now are the cattle? They are dead and buried.

—Husky Gales

THE QUESTION WHETHER.

When we have thrown off this old suit So much in heart of mortal men, To sink among the naked mute, Is that, think you, our ending? We follow many, move we lead, And you who say, "Turf, turf, Believe not that all living dead, Must flower above the surface."

Sensation is a gracious gift, But were it mingled to station, The prayer to live is cast aside, Would spend from all sensation, Enough if we have walked to sun, Have sped the plow a season, There is a soul for labor done, Endured fixed as reason.

Then let our trust be firm in Good, Though we are mingled to station, Our questions are a mortal burden, Our work is everlasting, We follow many, move we lead, Are in its being shapers, And whether vainer sounds than Whence For word with such a reason.

—George Meredith.

HUMOR OF THE DAY

"Aren't the dresses commonly seen on the street rather startling?" "They never startle me," replied the severe citizen. "I am never so impetuous as to look at Washington Star."

"Just because she was married, a woman the other day under took to lecture me on the way I ought to behave." "Why didn't you tell her to mind her own business?"

"She said that was what she was doing—you see, she was my wife."—Minneapolis Tribune.

Ches Nutt—Wood a man be popular who didn't dine for women? Hazel—Knot if he had a block head, but let her and wore a palm suit, tickery shirt, bow tie and chip hat. —Exchange.

"People don't read Dickens as much as they used to." "No," replied Miss Cayett. "The illustrations in his books are so good, they discourage a reader at the outset. They show people whose clothes are so terribly out of style."—Washington Star.

"We enjoyed having Mr. Dubleigh as our guest during the hot weather." "I suppose so," replied such an awful frost."—Boston Transcript.

"Who is your favorite film hero?" "The poor chap who has to read all the advertisements."—New York Sun.

"Your hair restorer did nothing for me. The way you talked I thought it would grow hair on a billiard ball." "No, it won't grow anything on solid ivory."—Louisville Courier-Journal.

"Mrs. Jibway told me Mr. Jibway's salary had been increased \$5,000 a year," said Mrs. Dubwaite. "Well, my dear," replied Mr. Dubwaite. "But she told me in the strictest confidence. Would it be wrong for me to tell all the neighbors?"

"If you don't she will never forgive you."—Birmingham Age-Herald.

Mrs. Pester—"You're not as well trained as Mr. Homebody. He washes all his dishes." Her Husband—"That's no job in his house. He doesn't provide food enough to soil any dishes."—Newark Globe.

KALEIDOSCOPE

Alarm bells can now be run by wires at a distance of 100 miles.

The topaz derives its name from Topazos, an island in the Red Sea.

The various current in the North Sea are now being traced by means of sealed bottles.

The vibrations of sound caused by spoken words can now be recorded by a clever invention.

Pictures printed in dots on the Braille system, are the latest innovation for assisting the blind.

Documents prove that William the Conqueror, the first Norman king in England, could not sign his own name.

Special motion picture films are being shown after Sunday evening service in a Middlesbrough (England) church.

In describing the Cumbria coal field of Wyoming, an expert mentions the interesting fact that gold and silver are present in small quantities in the coal.

The Christian Science Monitor. From the occurrence of iron pyrite, which is distributed throughout the coal seam, it is suspected that this mineral carries the precious metals. The coals made from the coal is used in the smelting works and averages from one to two penny weight of gold a ton, which is sufficient to compensate for a high ash content. There has been a similar occurrence in South Africa. The coal occurred in small seams running through the ore, and was found in place was quite rich in gold and being colored a bright purple by the finely divided particles of metal.
